

Human Energy Economics

Engineering Operational Silence

HUMAN ENERGY RECOVERY FRAMEWORK (HERF)

HERF = 5R Cascade Framework (5R) + Operational Silence Framework (OSF)

Fewer Reasons to Respond.

Firefighting

React. Resolve.
Manage the chaos.

Fireproofing

Stabilize. Prevent.
Reduce repeat issues.

Engineering Silence

Eliminate root causes.
Remove recurring demand.

Operational Silence

Minimal recurring work.
Smooth, reliable operations.

Execution Excellence

Maximize execution capacity.
Deliver sustainable value.

Fewer interruptions. More execution capacity.

Md Mozammel Hoque

Management Researcher

Founder of Human Energy Economics (HEE)

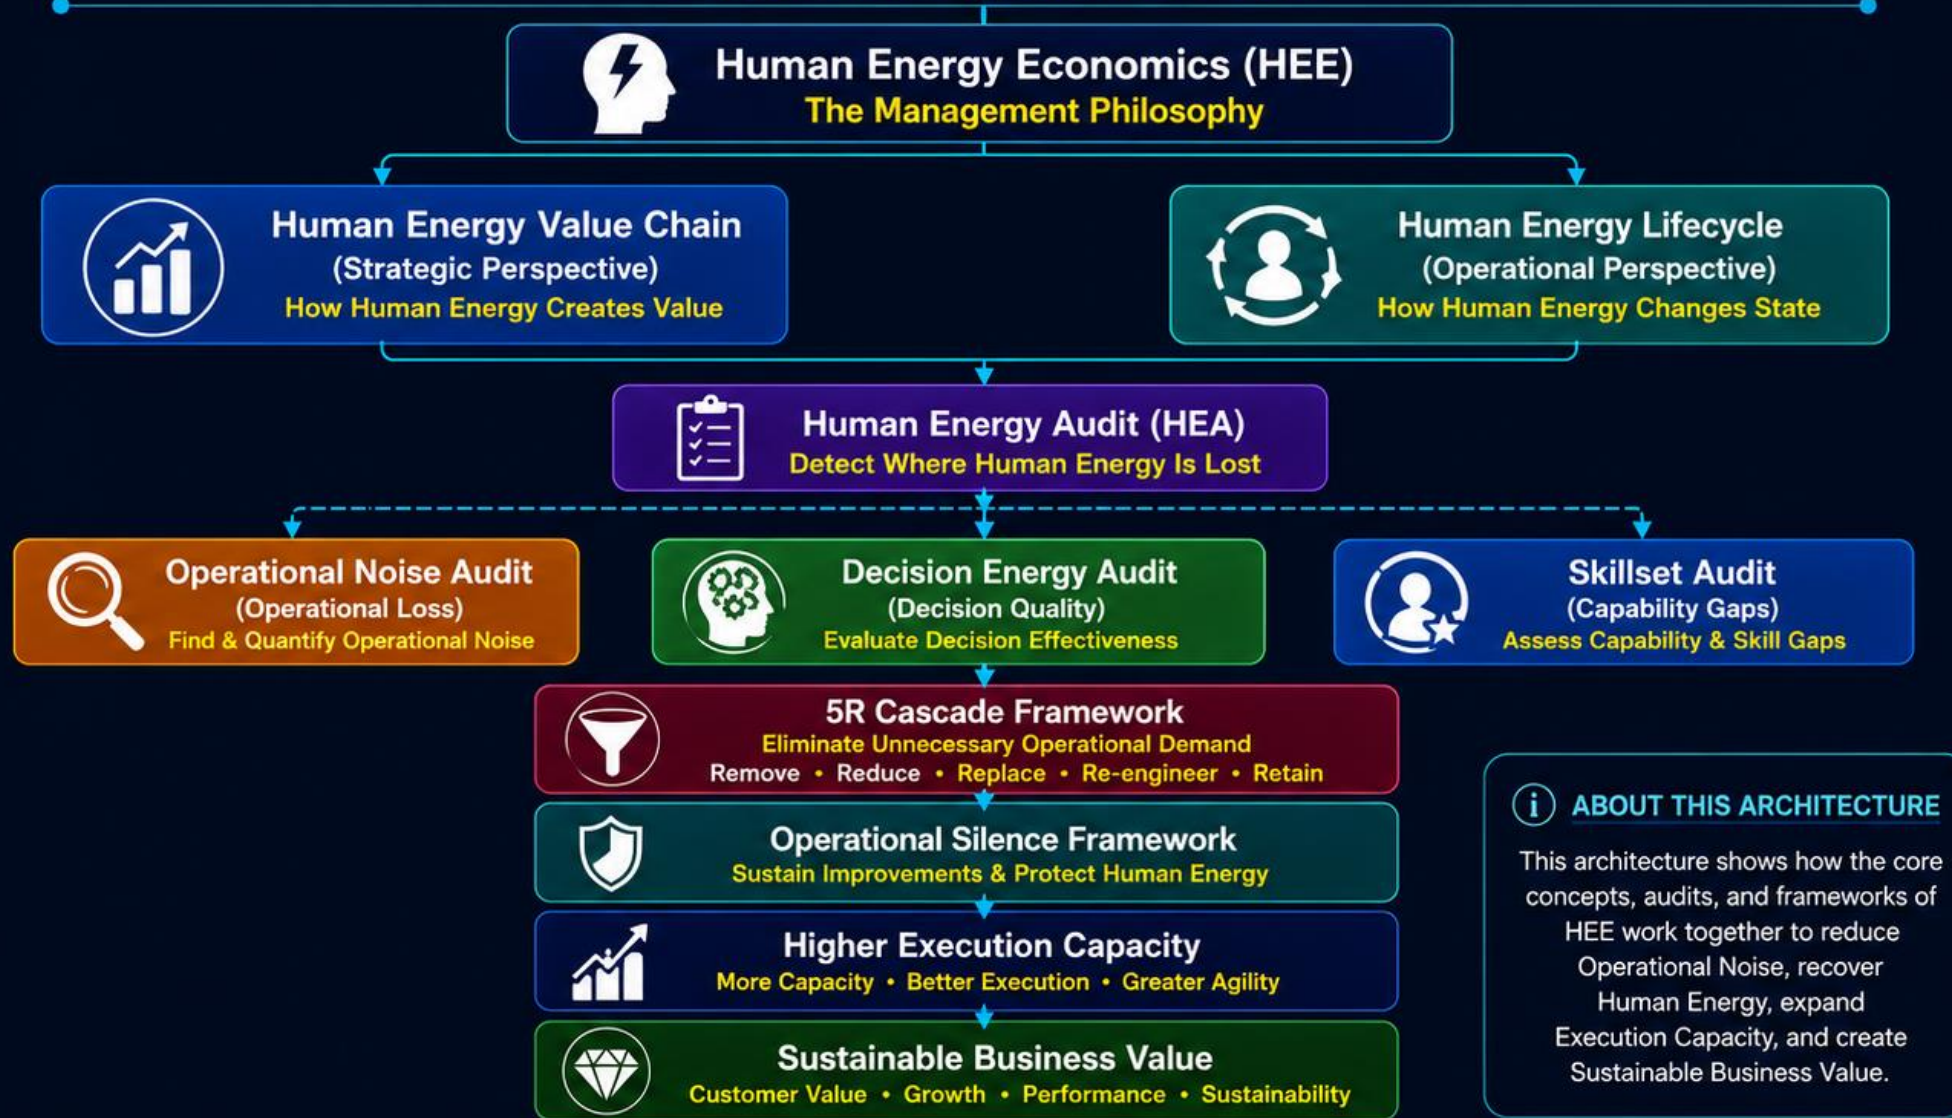

Creator of the 5R Cascade Framework and
Operational Silence Framework

HUMAN ENERGY VALUE CHAIN

How Human Energy Creates Sustainable Business Value

Reduce Operational Noise. Recover Human Energy.
Expand Execution Capacity. Create Sustainable Business Value.

HUMAN ENERGY LIFECYCLE

How Human Energy Changes State Throughout Organizational Work

Human Energy is finite, but recoverable.
Manage it intentionally. Protect it continuously. Utilize it wisely.

HUMAN ENERGY ECONOMICS (HEE)

THREE SIGNATURE VISUALS

1 HUMAN ENERGY VALUE CHAIN

The Strategic Model

How Human Energy Creates Sustainable Business Value

Reduce Operational Noise. Recover Human Energy.
Expand Execution Capacity. Create Sustainable Business Value.

2 HUMAN ENERGY LIFECYCLE

The Operational Model

How Human Energy Changes Throughout Organizational Work

Protect Human Energy. Reduce Operational Noise.
Improve Continuously. Create Greater Impact.

3 HEE CONCEPTUAL ARCHITECTURE

The Enterprise Model

How the HEE Ecosystem Fits Together

HEE helps organizations eliminate unnecessary operational demand, recover Human Energy, expand Execution Capacity, and create Sustainable Business Value. It complements Lean, Six Sigma, Operational Excellence, AI, and Digital Transformation.
